

PASSAP E8000 Home use

- 
- This knitting machine is designed for fabric making and this opens up the opportunity for making your own curtains, furniture covers, in fact any place that you would use knitted fabric for.
  - For cottage industry you could make exclusive fabric and sell the fabric or convert customers designs into fabric for them.
  - Uses inexpensive industrial yarns even lycra.
  - Built to the usual Passap high standard.
  - The software will run on almost any IBM compatible computer (windows if using DK6)
